

Preliminary Amendment
Appln. No.: National Stage of PCT/JP2005/004329

REMARKS

The specification has been amended to correct various inadvertent obvious errors and typographical errors. The amendments at pages 6, 7 and 8 correct typographical errors. These amendments are based on the description at page 3, line 27 to page 4, line 10 of the specification. The amendments at page 97 and page 103 clarify that it is a monomer but not a structural unit that is selected. As to the amendment at page 129, the complex obtained in Preparation Example 3 is an erbium complex but not an europium complex.

Furthermore, the claims have been amended to remove multiple dependency.

No new matter has been added. Entry of the amendments is respectfully requested.

Respectfully submitted,

Abraham J. Rosner
